

The Estonian Football Federation choose ISP Sport & Marketing as official partner.

The Estonian Football Federation has chosen ISP Sport & Marketing (established 1985) from Sweden as its official partner in order to develop and market Estonian football.

The joint venture includes international matches as well as the qualifying rounds for the next World Cup and European Championships.

This co-operation opens the door to a whole range of marketing activities for companies wishing to market themselves in Estonia and the rest of Europe.

ISP Sport & Marketing is also co-operating with the Estonian Handball Federation as well as the Latvian Football, Handball and Basketball Federations.

Please call us for further information.

INTRODUCTION

This statistical revue is the first of its kind ever published about the former Soviet Union Republics. There are yet lots of unsolved problems in all the 15 Republics, as in politics and in football.

Most of the Republics have played their first independent Championships, some of them have changed, some are currently changing and some Republics (like Russia) will probably never change their system to autumn-spring season as practically every other country in Europe plays.

The same disorder seems unfortunately to occur in most of the Republics in football statistics. So in this first issue we can not provide you with all the statistics from every country involved.

We hope we can do it in the future or as another possibility we can concentrate on the Baltic States with full statistical information and publish only tables from other Republics. We hope our readers can tell us which will be the best way.

I must say, the work our editors and co-ordinators have done has been incredible but I also say that I know how far away we are from the perfect book.

Yours sincerely

Marcus Luik
